## A 3-STEP PROGRAM FOR LEADERS AND TEAMS

Is innovation important to you (and your team)?  
Do you want to lead innovation?  
Does your team need an innovation reboot?

At Hargraves, we've been working with successful leaders and their teams for almost two decades. And after thousands of conversations, **we know what makes innovation happen.**

Our 3-step program distils 20 years of learning and insights into actionable steps to **empower teams of any shape, size or sector through collaboration and innovation.**

Research today shows that...

- We work in twice as many teams (as 5 years ago)
- We spend 80% or more time collaborating (emails, meetings, phone calls)
- Over 70% of innovation comes from collaboration (adaption or copying)

www.hargraves.com.au

### The program includes

**Step 1: A Health Check** to identify current state (innovation maturity, priorities and performance). Analyse priority areas using our 16 building blocks of innovation and set clear actionable objectives. Understand relevant strategies, methods and tools.

**Step 2: Action learning program** to help you adapt and grow.

Our tools and programs are designed in collaboration with leading organisations to address genuine issues. These resources are the foundation for your custom program.

For example, a Strategy Masterclass using the Health Check to bring your leaders on board; Innovation or Collaboration Training using diagnostics and tools; a Team Culture Workshop using our Healthy Teams Assessment, etc.

**Step 3: Coaching – For you (the team leader).** Regularly review progress and objectives with your personal innovation coach.

“ A crystal ball moment where what we suspected about our team was confirmed. Positives and negatives. – MLA ”

### Why makes this program different?

Traditional consulting addresses a client-identified objective via delivery of a project. A walk-in walk-out solution.

Our 3-step program incorporates proven tools and programs via an assessment, fully facilitated delivery and follow-up coaching and support, all at a fixed fee.

Reap the benefits of collaboration with hundreds of leading organisations including Roche, CSR, Dept of Health, AGL, Coca-Cola, Sydney Trains and more.
