

WELCOME TO HARGRAVES

MAXIMISE YOUR MEMBERSHIP

Welcome to Hargraves. We're an open, collaborative community sharing insights and experience.

Organisations join Hargraves to build innovation capability and help their people develop an innovative mindset. So if your team or organisation has joined as an Institute Member, you're a member too.

Our point of difference - community and collaboration. We don't do your innovation for you - we connect you, inspire you and help you become more innovative for long-term results and success.

As an Institute Member, your corporate membership offers:

- Learn from the experience of peers and share 'collective wisdom'.
- Connect with a network of individuals from diverse sectors and industries.
- A trusted, established, environment; a genuine willingness to collaborate and build direct relationships.
- Participate in programs, tools and training designed for and on behalf of members to address real issues.

"The Hargraves 'glue' that connects its members is also a wealth of knowledge and capability. If Hargraves doesn't have the answer, they can connect you with someone that does."
Resmed

MEMBERSHIP BENEFITS

Benefits for anyone registering via your company's email address include:

- Full membership of, and access to, our community and collaboration activities.
- Register your preferences so we know what's important to you.
- Subscribe to our newsletter for monthly updates.
